

Scientific Research, Consulting & Training for INDUSTRY

Our new GEM-RG Geochemistry, Modelling and Decisions RESEARCH GROUP (www.gem-rg.com) is glad to OFFER consulting and training for **ENVIRONMENTAL CONTAMINATION ASSESSMENT** (EIA & RA) for your mining company:

Design, implement and evaluate environmental **ASSESSMENT**

- field sampling and measurement
- laboratory test design and implementation
- geochemical data analysis & interpretation.

We also provide related **TRAINING** in:

- [field observation and sampling](#)
- [laboratory analysis](#)
- [geochemical data analysis & interpretation.](#)

TRAINING on EU legislation is also offered:

- [at the client or at our premises.](#)

We also excel in **RISK-BASED INVENTORY** of mining sites:

- field sampling and measurement
- database design and GIS implementation
- risk-based ranking of sites
- web-based data reporting and representation.

A competence **DEMO REPORT** of contamination assessment, **DOWNLOAD:**

- [Metal Mine Report.](#)

*Beyond professional routine, the GEM-RG Research Group is offering expert input based on ongoing high-standard applied scientific research. This ensures the **state-of-the-art knowledge** base and creative solutions.*

We are successful in **EU Fund** and other **FUNDED PROJECTS:**

- [PROJECTS & PROPOSALS.](#)

The Group is proud of the **RESULTS** documented by

- [References](#)
- [Publications](#)
- [Awards.](#)

Contact us, we are glad to provide more information on our research, competence and services.
