

Scientific Research, Planning & Training for **GOVERNMENT**

Our new GEM-RG Geochemistry, Modelling and Decisions RESEARCH GROUP (www.gem-rg.com) is glad to OFFER services and training for **ENVIRONMENTAL PLANNING** and **EU LEGISLATION** for your government.

We provide **TRAINING on EU legislation** for the environment and minerals to your unit:
- [at your or at our premises](#).

EU TAIEX WORKSHOP for you:

We develop proposal for the [EU TAIEX Workshop](#) and TAIEX Expert Visits and Study Visits in the fields of geology, mineral resources, energy resources, geo - thermal energy, mining, env. issues for YOU. We arrange World-class Lecturers, according to your needs.

We also excel in **RISK-BASED INVENTORY** of mining sites at the nation-wide level:

- field sampling and measurement
- database design and GIS implementation
- risk-based ranking of sites
- web-based data reporting and representation.

We also provide related **TRAINING** in:

- [field observation and sampling](#)
- [laboratory analysis](#)
- [geochemical data analysis & interpretation](#).

Our **REFERENCES** speak for themselves:

- European Commission – [Guidance](#) on mine waste risk-based inventory
- National Inventory - [Hungary, Member State Report](#) on mine waste inventory.
- National Inventory – [Turkey, Candidate Country](#).

Beyond professional routine, the GEM-RG Research Group is offering expert support based on ongoing high-standard scientific research and outstanding EU experience. This ensures the state-of-the-art knowledge base and creative solutions.

The Group is proud of the **RESULTS** documented by

- [References](#)
- [Publications](#)
- [Awards](#).

Contact us, we are glad to provide more information on our research, competence and services.
